

# Forestry's Flourishing Environmental Feat

Client: Leading Forestry Enterprise

## THE CHALLENGE:

In the world of forestry, ESG\* requirements are paramount. Our client aspired to meet these rigorous demands by securing Toitu Enviromark certification, including gaining ISO 14001\* accreditation, to satisfy international standards.

## OUR SOLUTION:

Total Utilities stepped in as the guiding light to navigate the complex terrain of ESG compliance. We charted a course that led the client toward Toitu Enviromark certification. Simultaneously, we set the stage for an ISO 14001 accreditation journey, aligning them with international regulatory norms.

## THE OUTCOME:

- **ESG excellence:** Our support propelled the client to excel in the realms of environmental, social, and governance standards.
- **Certification success:** Achieving Toitu Enviromark certification enhanced their industry reputation and sustainability profile.
- **Global compliance:** Preparing for ISO 14001 accreditation positioned them as a global forestry player in alignment with international regulations.

Our collaboration not only met the client's ESG goals but also set them on a path to national forestry leadership.

---

\*ESG (Environmental, Social, and Governance) requirements represent a set of sustainability criteria that businesses must address, covering environmental impact, social responsibility, and governance practices. Achieving ESG excellence involves minimising environmental footprint, promoting social equity, and maintaining robust governance principles.

\*ISO 14001 Accreditation is an internationally recognised standard for Environmental Management Systems (EMS). It helps organisations manage and improve their environmental performance, reduce risks, and enhance operational efficiency. Achieving ISO 14001 accreditation signifies a commitment to environmental responsibility and global environmental norms.
