

ENERGY SAVINGS MADE EASY

ILLUMINATE ENERGY SAVINGS, TURN THE LIGHTS ON WITH TOTAL UTILITIES AND ENERGY INTELLIGENCE

- Survey your facility to identify saving opportunities.
- Prioritise savings with highest return on investment.
- Gain clear, real-time visibility of your energy performance.
- Instantly cut costs with device-level energy management.
- Access real-time analytics, alerts, & actionable insights.

PROVEN SUCCESS

Manufacturing Company

Energy savings of \$420k per year identified with a return on investment of 1 year and 10 months.

Cold Storage & Logistics

Energy savings of \$230k per year identified with a return on investment of 1 year and 2 months.

Fruit Packing & Storage

Energy savings of \$94k per year identified with a return on investment of 2 years and 6 months.

INTEGRATED SOLUTION. THREE PARTS.

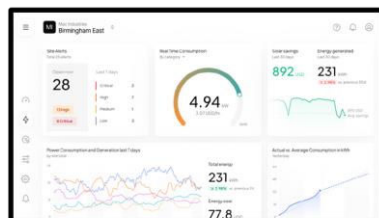

Measure

Consolidate data from all your devices, and 3rd-party sources, transmit to cloud in real time.

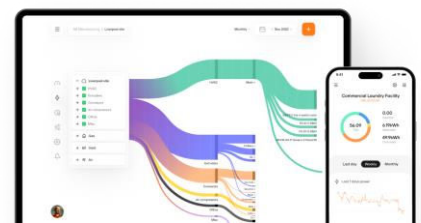

Monitor

Visualise your usage and tailor it to your requirements and KPIs.

Minimise

Real time data combined with a Type 1 Energy Audit will highlight key energy savings opportunities.

YOUR CUSTOMISED ENERGY SAVINGS PATHWAY

Our accredited specialists guide you on your energy savings pathway. They bring specialised expertise to deliver tailored solutions optimised for your unique needs.

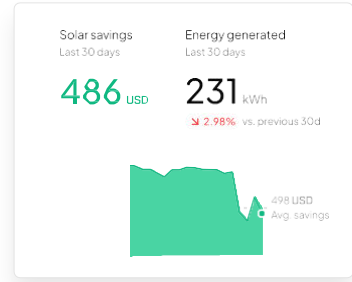

Survey

You get a customised blueprint illuminating potential energy savings across your facility.

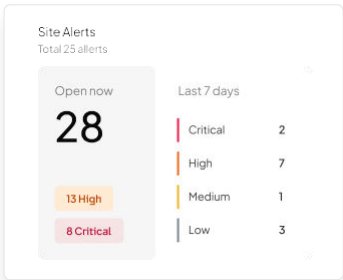

Setup

Wireless, self-powered sensors and meters are easily installed to monitor the activity of energy-using devices.

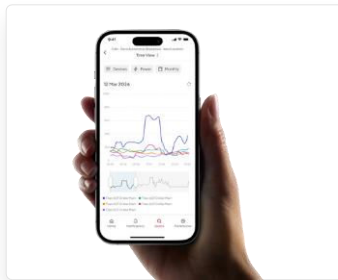

Visibility

Customised dashboards and widgets provide real-time, device-level energy usage information.

Analytics

Each user or team can access the information they need to create, monitor and track specific KPIs.

Insights

Alerts and reports enable constant awareness of energy waste, machine breakdowns and more.

Energy Cost Savings

Use data to make informed decisions that prevent costly downtime, justify investments and improve efficiency.

ACTIONABLE ENERGY INSIGHTS ANYTIME, ANYWHERE
